

Come Unto Me

Anointed

I remember the time, I turned and walked away
Like a lamb who'd gone astray
My life was filled with grief and every day I searched for relief
But in the distance I could still hear Him say "Come unto me, if you are weary
And I will give you rest
Come unto me, if you are worried
I'm all the comfort you need
So come unto me, come unto me" Now if you may find yourself hopeless or in despair
Brokenhearted, needing someone to care
You can begin to express all the void and emptiness deep inside
He's waiting with His arms open wide to receive you today
Come unto me, if you are weary
And I will give you rest
Come unto me, if you are worried
You see, I'm all the comfort you need
So come unto me, if you are weary
And I will give you rest
Come unto me, if you are worried
You're covered with sorrow, you can't see a tomorrow
I'm all the comfort all you need
So come unto me
Come unto me
Come unto me
Come unto me
