The I V and your hospital bed
This was no accident
It was a therapeutic chain of eventsThis is the scent of dead skin on a linoleum floor
This is the scent of quarantine wings in a hospital
It's not so pleasant and it's not so conventional
It's sure as hell ain't normal, but we deal, we dealThe anesthetic never set in and I'm wondering where
The apathy and urgency is that I thought I phoned in
It's not so pleasant and it's not so conventional
It's sure as hell ain't normal, but we deal, we dealJust sit back, just sit back, just sit back and relax
Just sit back, just sit back, just sit back and relapse againCan't take the kid from the fight, take the fight from the kid
Sit back relax, sit back relapse again
Can't take the kid from the fight, take the fight from the kid
Just sit back, just sit backYou're a regular decorated emergency
You're a regular decorated emergencyThis is the scent of dead skin on a linoleum floor
This is the scent of quarantine wings in a hospital
It's not so pleasant and it's not so conventional
It's sure as hell ain't normal, but we deal, we dealThe anesthetic never set in and I'm wondering where
The apathy and urgency is that I thought I phoned in
It's not so pleasant and it's not so conventional
It's sure as hell ain't normal, but we deal, we dealCan't take the kid from the fight, take the fight from the kid
Just sit back, relax, sit back, relapse again
Can't take the kid from the fight, take the fight from the kid
Just sit back, just sit backSit back, sit back, relax, relapse
Sit back, sit back, ba, ba, ba, da
You can take the kid out of the fightYou're a regular decorated emergency
The bruises and contusions will remind me
What you did when you wake
You've earned a place atop the ICU's hall of fame
Camera caught you causing a commotion on the gurney againYou're a regular decorated emergency
The bruises and contusions will remind me
What you did when you wake
You've earned a place atop the ICU's hall of fame
Camera caught you causing a commotion on the gurney againCan't take the kid from the fight, take the fight from the kid
Just sit back, relax, sit back, relapse again
Can't take the kid from the fight, take the fight from the kid
Just sit back, just sit backSit back, sit back, relax, relapse
Sit back, sit back, ba, ba, ba, da

You can take the kid out of the fightThe I V and your hospital bed
This was no accident
It was a therapeutic chain of events
