

# Country Girl

## The Ozark Mountain Daredevils

Fell in love with a country girl, mornin' sunshine,  
She was up from a nether world, just to bust another soul  
    Her eyes were an endless flame, unholy lady  
    Desire wore a special name, made to snatch  
        Your soul away, yeah  
    We sailed away on a crimson tide,  
        Down the river,  
    Left my heart on the other side  
        All to break it into bits  
    Her smile was a winter song  
        A Sabbath ending  
    Don't sleep or you'll find me gone  
        Just an image in the air, oh yeah

    In dreams I think of you  
    I don't know what to do with myself  
        Time has let me down  
    She brings broken dreams, falling stars  
        The endless search for where you are  
    So Wrong, so wrong, so wrong, so wrong  
        Don't sail away on a crimson tide  
    Don't leave your heart on another side  
        She rides on an endless flame  
    Desire wanna scratch your name  
        Don't ever fall in love  
    Don't give your heart away  
    Don't ever, never fall in love  
        With a country girl!
