

Honey And The Bee

Owl City

Don't remind me
That some days I'm the windshield
And other days I'm just a lucky bug
These cold iron rails
Leave old mossy trails
Through the countryside
The crow and the beanfield
Are my best friends, but boy I need a hug

(Boy I need a hug)

'Cause my heart stops without you
There's something about you
That makes me feel alive

If the green left the grass on the other side
I would make like a tree and leave
But if I reached for your hand, would your eyes get wide
Who knew the other side could be so green

Don't remind me
I'm a chickadee in love with the sky
But that's clearly not a lot to crow about
'Cause when the stars silhouette me
I'm scared they'll forget me and flicker out
I taste honey but I haven't seen the hive
Yeah, I didn't look, I didn't even try

But still my heart stops without you
'Cause there's something about you
That makes me feel alive

If the green left the grass on the other side
I would make like a tree and leave
But if I reached for your hand, would your eyes get wide
Who knew the other side could be so green

We are honey and the bee

Backyard of butterflies surrounded me

I fell in love with you like bees to honey
Let's up and leave the weeping to the willow tree
And pour our tears in the sea

I swear
There's a lot of vegetables out there
That crop up for air
Yeah, I never thought
We were two peas in a pod
To be suddenly bloomed
And I knew that I'd always love you

Oh, I'll always love you too

If the green left the grass on the other side
I would make like a tree and leave
But if I reached for your hand, would your eyes get wide
Who knew the other side could be so green

If the green left the grass on the other side
I would make like a tree and leave
But if I reached for your hand, would your eyes get wide
Who knew the other side could be so green

If I reached for your hand for the rest of my life
Who knew the other side could be so green
