

# Jah Bless

## House of Shem

Yes Jah Bless  
Yes my friend don't lose trust trust in Jah  
Forgive the saviour  
Yes Jah Bless

From the beginning of time  
Jah creation well the thought is devine  
Swing to the groove it's concrete jungle so there's no vine  
Get to the otherside safely it's fine you won't be left behind ooohh  
Let's rejoice in the name of His Majesty  
He leads the way to living life eternally

### CHORUS:

New way... You pray  
Can't fight the feeling we all need so many so start today  
Just give it a try you can make up your mind  
Just give it sometime  
Just give it a try you can make up your mind  
Just give it sometime

Woooh... We just need love that'll guide him to take the soul  
Make hate join in me & envy & disregard in terms of any bad heart  
Rise on up... forever to the end  
Don't be ashamed of any our mistake I'm making  
Impromptu mostly we doing the same thing  
The penance on our ability for comprehension

### CHORUS:

New way... You pray  
Can't fight the feeling we all need so many so start today  
Just give it a try you can make up your mind  
Just give it sometime  
Just give it a try you can make up your mind  
Just give it sometime

Open your heart  
And let your mind be free don't think differently  
You can do it & just believe then you will see  
Limited time don't press rewind just be there on time  
Let it flow make it show

You can do whatever it is you we're wanting too

CHORUS:

New way... You pray

Can't fight the feeling we all need so many so start today

Just give it a try you can make up your mind

Just give it sometime

Just give it a try you can make up your mind

Just give it sometime

(Chorus Repeats)
