A Good Place

Seminole String Band

Rejected and afraid
You feel so all alone
Your soul is crying out
For a place to call your home
The world has torn your world apart
And left you in the cold
But something led you here today
To a love that you can hold

This is a good place
This is God's place
This is where your heart belongs
A place of forgiveness
A place for the broken
A place where the healing has begun
So bring all your scars and give them to Jesus
He will wipe away your tears
This is a good place
This is God's place
You can leave your burdens here

Your haunted by your past
And the places you have been
Mistakes that you have made
That seem to have no end
But here you'll find a family
And comfort in the One
Who holds all your tomorrows
God's own begotten Son

Cause this is a good place
This is God's place
This is where your heart belongs
A place of forgiveness
A place for the broken
A place where the healing has begun
So bring all your scars and give them to Jesus
He will wipe away your tears
This is a good place

This is God's place
You can leave your burdens here

Here in a love that never turns and walks away
Here in the presence of the Saviour you'll find grace

Cause this is a good place
This is God's place
This is where your heart belongs
A place of forgiveness
A place for the broken
A place where the healing has begun
So bring all your scars and give them to Jesus
He will wipe away your tears
This is a good place
This is God's place
You can leave your burdens here
Leave your burdens here
You can leave your burdens here
