

# Northern Lights

## St. Vincent

If you say it is, then I guess it is  
What you say it is, but I don't feel anything  
'Cause your pendulum is in swing again  
Yeah, your pendulum hasn't swung back in  
It's a champagne year full of sober months  
Through my maudlin days, through my dry moments  
I saw the morning Northern Lights  
Convinced it was the end of times  
I saw the morning Northern Lights

Gotta get young fast  
Gotta get young quick  
Gotta make this last  
If it makes me sick

I saw the morning Northern Lights  
Convinced it was the end of times  
I saw the morning Northern Lights  
Convinced it was the end of times

I saw the morning Northern Lights  
I saw the morning Northern Lights  
I saw the morning Northern Lights  
I saw the morning Northern Lights
