Thicker

The Blank Theory

I always felt like there was something
complicated around you'
but the fact is it was nothing
I could see or much less I could believe.
And I always tried to be so fair'
but the difference is you never really cared
so I guess I've always known that it was over'
she's over me.(So why don't you care)
It's been surreal since I found you
but my skin is thicker now it's over'
she's over me.
it's been so hard since you left me
but this blood is thicker now it's over'
she's over me.I always felt like there was something
hidden deep below
what I thought was nothing
but a dismal day..
but the day got away
and I never want you to mistake
that this blood won't dry on me.
And so I guess I've always known that it was over'
she's over me.(So why don't you care)
It's been surreal since I found you
but my skin is thicker now it's over'
she's over me.
it's been so hard since you left me
but this blood is thicker now it's over'
she's over me.(so why don't you come)From the ashes of the love we burned
to the depths of it's recess:
all alone I can see so well
that the rest of my life seemed to drown so slow.since I found you
but my skin is thicker now it's over'
she's over me.
so hard since you left me
but this blood is thicker now it's over'
she's over me.I'm so far(This blood is thicker now it's over
she's over me)
I'm so far(This blood is thicker now it's over
she's over me)

away from me
