

# Paradox

## Hypocrisy

??? to violent ???  
I tried to find my own ???  
And I'll rule ???  
And create a perfect race ???The voices I here are trying to control me  
Need to clean my mind or never survive  
Suicide, the only solution  
Life is to a fault for no retribution???  
But now ???  
???  
This is ???Slashing my arms,  
To let the blood free  
Soon to get away from the pain  
I have lost all I believe,  
To a world of hypocrisy  
Not afraid to die,  
Just an empty soul, unconsciousWhats a drug to make a difference  
But now I'm taking it through  
Only the pain I earn,  
The kind that sticks right through youThe voices are here are trying to control me  
Soon to get away from the pain  
I have lost all I believe,  
To a world of hypocrisy  
Not afraid to die,  
Just an empty soul, unconsciousWhats a drug to make a difference  
But now I'm taking it through  
Only the pain I earn,  
The kind that sticks right through you
