Fuzzy Birds

Super Furry Animals

Hamster, turning round in your wheel
I've got something to tell you
I can harness your feelDynamo for electricity
You empower my feelings
Give me light for me to seeSo won't you give me some food?
I really need to get some energy in me
Give me some
I really need to get some energy in meGive me some
The world is turning, kicking, screaming 'round my little head
To spread it on my bread
Don't you know that I spread it on my bread?Rest yourself you've been long on your feet
If I buy you a matchbox
Will you keep it all neat?Radiate, you're no flash in the pan
You're the battery incarnate
I'm an innocent manSo won't you give me some food?
I really need to get some energy in me
Give me some
I really need to get some energy in meGive me some
The world is turning, kicking, screaming 'round my little head
To spread it on my bread
Don't you know that I spread it on my bread?
