

Happy In Love

The Bridges

Our loneliness is coming so let's give us a try
Who wouldn't try?
If we're our only witness then we owe us a lie
Who wouldn't lie?
Tossing a coin
Chances are you won't love that boy
There's time to invest
You've locked your heart in some secret chest I'll never find love
I find it hard to sleep
When words alone can't keep me
Happy in love Our loneliness is coming so let's give us a try
Who wouldn't try?
And time is fighting love but then we gave it that right
Who isn't right? I've got my eye on you, baby
