

Stagnant

Orchid

Deny the existence of...
Your philosophical orgasm.
Come down off your soapbox
It's been stood on before.
So much pride in you stagnant idea
Preaching the sermon to the converted.
Tunnel vision.
Rejection.
I'm still looking for answers,
But your answers leave me with more questions.
It fits into your comfortable life
Not everybody has it so easy.
Deny.
Deny the outside world and atrophy.
