

The Telephone Call (Perkowitz Remix)

Kraftwerk

I give you my affection and I give you my time
Trying to get a connection on the telephone line You're so close but far away
I call you up all night and day I give you my affection and I give you my time
Trying to get a connection on the telephone line You're so close but far away
I call you up all night and day
You're so close but far away
I call you up all night and day I give you my affection and I give you my time
Trying to get a connection on the telephone line I call you up from time to time
To hear your voice on the telephone line
I call you up from time to time
To hear your voice on the telephone line
