

# Dance

## Natas

(You ever dance with the devil in the pale moonlight) 2x  
Let me start my flow 1992 stuck in ya mind like crazy glue  
Esham's back once more for you brand new rhyme brand new crew  
My name's Esham the Unholy you can't stop me you can't hold me  
Back so watch your step cause some might sleep and some have slept on me  
But now they die don't know why nowhere to run nowhere to hide  
I'm a suicidal suicidalist now I'm pissed  
Get off my dick and let me hold it wait a minute  
The black devil ain't jokin' jack I ain't Toby you're a tokin black  
But it's alright I'm gettin uptight drop dead dance with the devil in the moonlight  
Hook: ( I can make you dance if you want me to) 2x  
(Wind up lookin at a ziploc) 4x  
Now some say I'm a witch ain't that a bitch  
When our crackheads be pro dead redrum rum rum red still keep hearing these voices in my head  
Am I dead or alive niggas be out to get me wanna get wit me  
Bring it on bring it on I got sticks and stones to break up yo bones  
Wanna dance wit a madman got stuck in the neck wit a shank too bad man  
Helter Skelter when I start dancin run for shelter  
I got a routine let me get my car beam I don't swing I got a M-16  
Show me that asshole and watch me plug it  
Fuck around and catch 30 bullets in your nugget  
Wanna get down then come around and you can dance with the devil in the moonlight  
Hook  
I've been doin' that acid some muthafuckas gonna get they funky ass kicked  
Now I'm high I wanna go kill myself don't know why  
I'm finna go and slit my wrist it went a little somethin like this  
Went to the bathroom turned on the water sat on my toilet stool  
First I gotta kill my people shot my father in the temple  
Stuck my mother wit a butcher knife now its time to take my own life  
Wit all my might I keep dancin with the devil in the moonlight  
Hook
