

# Voo-Doo Believe? (Baron Samedi)

## Datura

From the deepend of your soul  
There's a rising voice  
That is telling you  
That something's wrongFrom the bottom of the ocean  
To the mountains of the moon  
In a land that's known as freedom dome  
You'll find outBut you don't have to be blind  
You have to keep in mind  
Here's not a lot of time  
To rescue you being from the deep insideWould you believe?  
Voodoo believe  
Free to believe, just in  
Something you believe  
Voodoo believes, Buddha believes  
Jesus believes, deep in your heart you believeWhen the dawn becomes a day  
'Till the sunset comes, you'll be  
Searchin' out your space and time  
Down the dark side of your heart  
There's some galaxies apart  
Always ready to be filled with faith and hopeBut you just have to remind  
Be careful with your pride  
There is a truth  
To find, to salvage  
Your soul from the hidin' lineWould you believe?  
Voodoo believe  
Free to believe just in  
Something you believe  
Voodoo believes  
Moses believes, Nature believes  
Deep in your hearth you believe  
Would you believe?  
Voodoo believes  
Free to believe just in  
Something you believe  
Voodoo believes, Buddha believes  
Jesus believes, deep in your hearth you believeFull of misteries and fear  
And a trembling heart  
You'll be knockin'on the  
Heaven's doorSomeone answers from inside

Neither hills nor peaks to climb, for believers  
There's no fee to pay at all...
