Cherry On Top

Emma McGann

You've got a sweet tooth
You only want what's bad for you
You're making your move
You're hungry for what I could doLeavin' you tongue-tied
I'll take you to the other side
Your body's designed
To take it like a man tonight(Oo oo oo oo)
You, me and cherry wine
You got me feelin' fine
It happens all the time
(Oo oo oo oo)
Love me or love me not
I don't want this to stopI'll be your cherry on top
The only girl to make your eyeballs pop
The sweetest thing you ever caught
Come grab a taste while it's still hot
But I don't need a man who will always think twice
I'm a combination of naughty and nice
Boy if you want what I've got
I could be your cherry on topIt's kinda blurry
This ringin' in my ear's so loud
By seven thirty
I'm ready for the second round
The second round(Oo oo oo oo)
You, me and cherry wine
You got me feelin' fine
It happens all the time
(Oo oo oo oo)
Love me or love me not
I don't want this to stopI'll be your cherry on top
The only girl to make your eyeballs pop
The sweetest thing you ever caught
Come grab a taste while it's still hot
But I don't need a man who will always think twice
I'm a combination of naughty and nice
Boy if you want what I've got
I could be your cherry on top
On topBoy I know you're missin' out on something
(Missing out on something)

I'll be the girl to keep your heartbeat jumpin'
(Keep your heartbeat jumpin')
Boy I know you're missin' out on something
(Missing out on something)
I'll be the girl to keep your heartbeat jumpin'
(Heartbeat jumpin', heartbeat)I'll be your cherry on top
The only girl to make your eyeballs pop
The sweetest thing you ever caught
Come grab a taste while it's still hot
But I don't need a man who will always think twice
I'm a combination of naughty and nice
Boy if you want what I've got
I could be your cherry on top
On top
