

# Strum

## Soulcrap

Throw away all the things you hesitate  
Don't imagine all what you can forsake  
    All I want is what you can make  
Don't destroy all the things at stakeTry to think of a life at ease  
Taking all of the things you pleaseBaby, I know just what you need  
    Baby, I know just what you need  
    Sugar, don't let this love ever cease  
Sugar, don't let this love ever ceaseTry to think of a life at ease  
Taking all of the things you pleaseBaby, I know just what you need  
    Baby, I know just what you need  
    Sugar, don't let this love ever cease  
    Sugar, don't let this love ever cease
