Paradise

E-Type

Away,
Astray but on track to what I think
Will be the best of times when I'm on my own.
So if I may, I'll say yes, I am the player
Always on the move, I'm strong when I'm all alone.Some things will change -
I can feel it coming but I don't know what it is.
Feel out of range -
Don't know what to do, but I'll live.It must be like paradise,
If only someone could tell me how
So please start rolling the dice
Cause I can feel that my time is now.
It must be like paradise.Confused, reduced to a life where I'm no longer in control
All in all I got used to be
I'm not afraid, I played all the cards that I was dealt
But this is new, I'll just have to wait and see.Some things will change -
Don't know what to do, but I'll live.It must be like paradise,
If only someone could tell me how
So please start rolling the dice
Cause I can feel that my time is now.
It must be like paradise.It must be like paradise
