

Space Remains

Bear in Heaven

There
There are
There are greater
Elevators and
We will take
Them later on
Up from the
Craters to
The stars
Then beyond
After that
Were goneWe move through
Other planes
Still here
Our space remainsThere
There are
There are greater
Elevators and
We will take
Them later on
We will all
Be there
Before longWe
We move through
We move through
Other planes
Still here
Our space remainsThere
There are
There are greater
Elevators and
We will take
Them later on
Up from the
Craters to
The stars
Then beyond
After that
Were goneWe move through

Other planes
Still here
Our space remains
Our space remains
Our space remains
Our space remains
