

Pretty Melody

Butch Walker

Do you remember when we met?
Liquor drinks and cigarettes
All the boys were taking bets
Credit cards, so in debtBought drinks from you at the bar
Poured them out behind my car
So I could come back to where you are
And order from you again and againI'll be your open tap
You'll be my favorite sinYou're such a pretty melody
I'm just a tattooed tragedy
Oh baby, we don't have to be
Like the rest of themWhat time can we get out of here?
I got some words you need to hear
I really wanna make it clear
I don't do this everywhereHow do I make this not sound cheap?
I'd like show you where I sleep
Keep you there a couple weeks
Make you come again and againI'll be your waste of time
You'll be my happy endYou're such a pretty melody
I'm just another tattooed tragedy
Oh baby, we don't have to be
Like the rest of themIt's anything but hard to see
I want all of you all over me
There's not a single part of me
That won't ever let youYou're such a pretty melody
I'm just another tattooed tragedy
Oh baby, we don't have to be
Like the rest of themIt's anything but hard to see
I want all of you all over me
There's not a single part of me
That won't ever let you go
