Shane

Starflyer 59

So I told you all, Dont try it again. You might think its small. Until he rides it in.
Like Shane, he comes when you need him. Then off to the dusty trails. You know its a season, and he cant go home.
Sometimes it dont make sense. Its best to leave it alone. It makes me feel real small that he controls the winds.
Like Shane, he comes when you need him. Then off to the dusty trails. You know its a season, and he cant go home.
This ride seems long to me. Its not so far.
Like Shane, he comes when you need him. Then off to the dusty trails. You know its a season, and he cant go home.
