

# Finest Worksong

[R.E.M.](#)

The time to rise has been engaged  
You're better best to rearrange  
I'm talking here to me alone  
I listen to the finest work song  
Your finest hour, your finest hour Another chance has been engaged  
To throw Thoreau and rearrange  
You are following this time  
I beg you not, beg to rhyme (blow your horn)  
Your finest hour (blow your horn), your finest hour Take your instinct by the reins  
Your better best to rearrange  
What we want and what we need  
Has been confused been confused (blow your horn)  
Your finest hour (blow your horn), your finest hour Take your instinct by the reins  
Better best to rearrange  
What we want and what we need  
Has been confused been confused (blow your horn)  
Your finest hour (blow your song)  
Your finest hour (blow your horn)  
Your finest hour (blow your song)  
Your finest hour
