

Wish I Never Met You (Feat. Shonie)

Trina

I wish I never met you boy
And its killing me to know that I cant have you in my world
I wish I never met you boy
If I can turn back time then Ill make it so that you were my boo I wish I never met you boy
Every time I'm with my man all I do is sit and think of you
Dont wanna feel the way I feel about you When we first got together, I saw us chilling forever
A lifetime, best friends, for worse or for better
Then you switched up the weather, sunshine to clouds
I found a condom in your dresser and you know how we get down You fucking clown now I wish I never met
you
I shouldve listened to mama she said you wasnt nothing special
So now its to the left to the left
And everything you own's on the porch, nigga step and tell me What would you do if you were in my shoes?
Would you make it work or would you wanna choose
Between the one you love and between the one you with?
'Cause that's just how it is I wish I never met you boy
And its killing me to know that I cant have you in my world
I wish I never met you boy
If I can turn back time then Ill make it so that you were my boo I wish I never met you boy
Every time I'm with my man all I do is think of you
Dont wanna feel the way I feel about you Maybe Im tripping or I just cant figure you out
One night you say you love me the next you flipping out
But you can bounce, you know I dont need a man
Im sorry I met you I could do bad by my damn self I cant let you disrespect me, I'm a queen
And all my real boss chicks know what I mean
I bet you still tricking, you ain't learned your lesson
Now let me check your text messages and tell me What would you do if you were in my shoes?
Would you make it work or would you wanna choose
Between the one you love and between the one you with?
'Cause that's just how it is I wish I never met you boy
And its killing me to know that I cant have you in my world
I wish I never met you boy
If I can turn back time then Ill make it so that you were my boo I wish I never met you boy
Every time I'm with my man all I do is think of you
Dont wanna feel the way I feel about you I picture me and you together
Everything about you make my whole body shiver
It's you I want in my world
It's you that I adore I said I picture me and you together
Everything about you make my whole body quiver

It's you I want in my world
It's you that I adore What would you do if you were in my shoes?
Would you make it work or would you wanna choose
Between the one you love and between the one you with?
Cause that's just how it is I wish I never met you boy
And it's killing me to know that I can't have you in my world
I wish I never met you boy
If I can turn back time then I'll make it so that you were my boo I wish I never met you boy
Every time I'm with my man all I do is think of you
Don't wanna feel the way I feel about you If I can turn back time then I'll make it so that you were my boo
Every time I'm with my man all I do is think of you
