Attrition

Soundgarden

Laid here on the bone nasty gloom
Rene goons marches by
Hit it down in neurons too
Raising flags and burned rightsWar supper, I got made fire
And I'll be out spinning knives
Level out on the born blue skies
A victim smile never liesYou have always lived your life like a joke
With no time
Watch you gonna do about it
Take it, punch line rightOn the cliff, on much stronger waves
Can't decide to climb or drown
I was falling down disgrace
On your thumbs, all written
The ladder is poisoned, had to find a new way aroundWhat you gonna do about it?
What you gonna do about it?
What you gonna do about it?
What you gonna do about it?I always loved you like I'm down with no time
I always loved you like I'm down with no time
