

# I Was Meant To Love You

**Ricky Skaggs & Sharon White**

It might have been that very first touchâ€”

Remember when you took my hand

And wouldn't let go?â€”

I think it might have been then.

'Cause I can't remember the day before,

Or how I came to your fingertips.

It's crazy, but I've known ever since.CHORUS

That I was meant to love you

Like the sky is meant to be blue,

Like a sparrow's meant to spread it's wings,

And angels dance while God sings.

A touch was just the key I needed to unlock the truth

That I was meant to love you.

Oh, I was meant to love you.

And I almost messed up so many times,

Chasing something that looked like love

Down lonesome roads,

Never knowing when to give up,

And if you hadn't have reached for me,

All the sweetness I would have missed!

Oh, I believe until my life ends...CHORUS

That I was meant to love you

Like the sky is meant to be blue,

Like a sparrow's meant to spread it's wings,

And angels dance while God sings.

A touch was just the key I needed to unlock the truth

That I was meant to love you

Like the sky is meant to be blue,

Like a sparrow's meant to spread it's wings,

And angels dance while God sings.

A touch was just the key I needed to unlock the truth

Oh, that I was meant to love you.

Yes, I was meant to love you.
