She's Holding Out

Lloyd

There was a part of me,
That was tripping because you didn't call me right back,
The other part of me knew the difference was I could fall in love
With the girl, who knew the games and the rules of what I'm a do
Guess I managed to
Let her be my baby too much*She's gangster to me
The girl has style
Her loooove just keeps on,
Driving me wild
She's gangster to me
I know that I gotta get ruff
Cause she won't give me enoughJust a little bit, (she knows)
Just a little bit, (I want)
She's holding out, just won't give me enough
Just a little bit, (she knows)
Just a little bit, (that I need her)
She's holding out, she don't give me enoughI know times when, she would make me feel like I'm not number one
Cause she the one that let me know that I'm the one in control,
And when she kiss me, it's enough to make me want her again
That's why when I'm with my boys I have to hear them say...She's gangster to me
The girl has style
Her loooove just keeps on,
Driving me wild
She's gangster to me
I know that I gotta get ruff
But she won't give me enoughJust a little bit, (she knows)
Just a little bit, (I want her)
She's holding out, just won't give me enough
Just a little bit, (she knows)
Just a little bit, (I need her)
She's holding out, she don't give me enoughJust a little bit, (she knows)
Just a little bit, (I want her)
She's holding out, just won't give me enough
Just a little bit, (she knows)
Just a little bit, (I need her)
She's holding out, and she don't give me enoughShe's gangster to me
The girl has style
Her loooove just keeps on,

Driving me wild
She's gangster to me
I know that I gotta get ruff
But she won't give me enoughJust a little bit, (she knows)
Just a little bit, (I want her)
She's holding out, just won't give me enough
Just a little bit, (she knows)
Just a little bit, (I need her)
She's holding out, and she don't give me enough[repeat til end]
