Your Honor, I didn't do it
I didn't pimp her just for money
What's wrong with making her call me daddy?Your Honor, I didn't do it
Oh, Your Honor, she didn't like it
I don't care what she said
I didn't make her sell head
Your Honor, I didn't do itThe judge and jury just frowned at me
They said, "For exploiting your lady
Just for a payday is a sin and you will pay"When getting over is high above your head
And gettin' high can get you dead
What are you supposed to do?I didn't pimp her to support my high
Pick up my car and keep me flyin'
No, Your Honor, I did not do itThe judge and jury still frowned
(Your Honor)
And said, "Ten to twenty"
Your Honor, I still did not do it
Your Honor
