Good Morning

Two Door Cinema Club

I'm a sinner, I'm the victim
I'm an alien when I'm myself
I'm a healer, I'm a fixer
I'm a present danger to my healthI'm so strong
Doing what I'm supposed to do
There's something wrong
With somebody like meI've been here before, the warning
It opens up the door
And now I'm fallingWhy did I let it go?
Why did I leave myself?
No explanation as to why I'm here and
Not somewhere else
It's reaping what I sow
I think I need some help
I wanna let you in and I'll beginOne for science
One for Krishna
One for luck and one more for the road
I've been trying to find an answer
That I'm certain I will never know
I won't depend on something supernatural
I won't pretend that it's gotta be right for meI've been here before, the warning
It opens up the door
And now I'm fallingWhy did I let it go?
Why did I leave myself?
No explanation as to why I'm here and
Not somewhere else
It's reaping what I sow
I think I need some help
I wanna let you inThink I already know
It's out of my control
Found no solution but to let the pieces fall where they fall
Even with nothing left, I've got more than you know
I wanna let you in and we'll beginI over simplify this all the time
Somehow I think that I'm alone
I wake up every day and change my mind
Good morningI've been here before, the warning
It opens up the door
And now I'm fallingWhy did I let it go?
Why did I leave myself?

No explanation as to why I'm here and
Not somewhere else
It's reaping what I sow
I think I need some help
I wanna let you inThink I already know
It's out of my control
Found no solution but to let the pieces fall where they fall
Even with nothing left, I've got more than you know
I wanna let you in and we'll begin
