

Shine

Andreas Johnson

Sister, my head of creation
On the last train leaving the station
We got vast love, no destination
Tonight, we'll be forever, baby
Sister, my head of resistance
Tonight, we'll be together
We will always shine, shine on forever
Shine on whatever, we shine like a million stars
We shine, shine on forever, we're in this together now
We shine like a million stars, we shine
Sister, we got a connection
It's the last dance, the final injection
You are my way out, my head of direction
And I don't wanna lose you, baby
I don't wanna lose you, baby
Tonight, we'll be together
We will always shine, shine on forever
Shine on whatever, we shine like a million stars
We shine, shine on forever, we're in this together now
We shine like a million stars, we shine, we shine
Sister, in a moment we'll be gone
Sister, in a second we'll be one
Sister, we're helplessly falling
Tonight, we'll be together
We will always shine, shine on forever
Shine on whatever, we shine like a million stars
We shine, shine on forever, we're in this together now
We shine like a million stars, we shine
Shine together, shine, shine forever
