Take Off My Clothes

May7ven

You've been looking at the way that I look at you
Been hopping that am gone give it up to you
If you want me to, got a thing for you but first let me take off my clothes
I have been waiting for a guy to handle his biz, you looking like the type that can handle this , can you handle it, what I've got to give
Can you help me take off my clothesThe temperature is getting hot in here
I've got you touching the stratosphere
Come over I'll whisper in your ear
Do you wanna take off my clothes
The temperature is getting hot in here
I've got you touching the stratosphere
Come over I'll whisper in your ear
Do you wanna take off my clothesHave been waiting for the time to get intimate
You looking like you wanna get into it
Can you picture it, getting into it
Can you help me take off my clothes
If you want it come and get it am here for you
Do yo wanna know that things I get up to
When am in the mood, am a freak for you
Do you wanna take off my clothesThe temperature is getting hot in here
I've got you touching the stratosphere
Come over I'll whisper in your ear
Do you wanna take off my clothes
The temperature is getting hot in here
I've got you touching the stratosphere
Come over I'll whisper in your ear
Do you wanna take off my clothesThere's no way of stopping what we gonna do tonight
the feeling and emotions OH we gotta do it right
Do you want me , like I want you, boy I swear I do
There's no way of stopping what we gonna do tonight
All the feeling and emotions OH we gotta do it right
Do you want me , like I want you, boy I swear I doThe temperature is getting hot in here
I've got you touching the stratosphere
Come over I'll whisper in your ear
Do you wanna take off my clothes
The temperature is getting hot in here
I've got you touching the stratosphere
Come over I'll whisper in your ear
Do you wanna take off my clothes
