

# whats good

## OCDJ

Oh, Its just another day  
pickin up the pieces baby, tryin to find the reasons not to go and give it all away  
cause everytime your missin well I'm feelin that I'm losin part of me  
and I can't remember where things went wrong cause it's been so long and I,  
I can't believe that it's the end  
So baby help me understand! Wuts good, Wuts good? with you  
If I'm not the one you want, then I don't wanna sit and wonder  
Wuts good, Wuts good? with you  
Boy I'm sick of bein lost and I just wanna know wuts good, wuts good with you? Oh, it seems so meant to be  
till everything got twisted baby, look at how we drifted from those days, but I won't walk away  
no. I deserve an explanation, tell me why you're givin up on me and I can't remember where things went wrong  
It's time to let me know  
cause this ain't the way to let love end, so baby help me understand Wuts good, Wuts good? with you  
If I'm not the one you want, then I don't wanna sit and wonder  
Wuts good, Wuts good? with you  
Boy I'm sick of bein lost and I just wanna know wuts good, wuts good with you? Cause it's gone to far...  
can't you see these scars  
this look of loneliness  
cause I'm so confused  
what did I do to you to end up in this mess  
"Nothings wrong, nothings wrong" so you tell me, but i can't feel the truth  
So wuts good, wuts good with you? Wuts good, Wuts good? with you  
If I'm not the one you want, then I don't wanna sit and wonder  
Wuts good, Wuts good? with you  
Boy I'm sick of bein lost and I just wanna know wuts good, wuts good with you?
