

State of Mind (Presidential Mix)

Fish

I don't trust the government
I don't trust alternatives
It's not that I'm paranoid
It's just that's the way it is
Everyday I hear a little scream inside
Everyday I find it's gettin' louder
I just want to reach out and touch someone
'Cause I find, I need a friend in this dark hour
We the people are gettin' tired of your lies
We the people now believe that it's time
We're demanding our rights to the answers
We'll elect a president to a state of mind
I trust in conspiracies
In the power of the military
In this wilderness of mirrors here
Not even my speech is free
Everyday I hear a little scream inside
Everyday I find it's gettin' louder
I just want to reach out and touch someone
'Cause I find I need a friend in this dark hour
We the people want it straight for a change
'Cause we the people are gettin' out of your games
If you insult us with cheap propaganda
We'll elect a president to a state of mind
Everyday I hear a little scream inside
Everyday I find it's gettin' louder
I just want to reach out and touch someone
'Cause I find we need a friend in this dark hour
When we the people have our backs to the wall
Do we the people then assume control?
When it's too late to stop our own execution
When we're faced with the final solution
You can't elect a dream revolution
When you've a bullet in the back of your mind
It's just a state of mind
I hear a little scream inside
It's gettin' loud, it's gettin' loud, it's gettin' loud
(State of mind)
