I'll Stand Alone

[Ben Vaughn](#)

I'll stand alone
All by myself
If I can't have you
I don't want no one elseWithout your love
There's nothing left for me
So I'll live my live alone
And lonely, lonely miseryThere was a time
When it looked like
My dreams might come true
But you, you found another
And you left me
Forever blue
I'll stand alone
For the rest of my life
Calling out your name every night
Well you know, it just ain't right-guitar solo-There was a time
When it looked like
My dreams might come true
But you, you found another
And you left me forever blue
I'll stand alone
For the rest of my life
Calling out your name every night
Well you know, it just ain't right
