

Fresh Groove

Mista

Leave Yours Cares Behind, I just wana groove with you
Throw your worries out of your mind
I wana Spend some time with youExcuse pretty lady, pardon my actions if i seem abit rude
Im not asking to make no committment
i just wana dance away all my blues
so just let me take your breathe away and put some light into these heartaches of mine
just let me know when your ready cuz all i wana do is have a good timeIm not trying to pressure you, there's no
reason to be acting confused
My intentions are clear with you get on the floor cuz u got nothing to lose
(Are You Ready)
So just let it go and let me know what are you gonna do
(Instead of playing with your mind)
I rather spend this evening with you
(So just leave your Cares behind)
Rap
(Sliver Foxed Out Check It Out Now)
Get yourself off the wall we can have a ball or two
from me to you whatever u wana do
cuz aint nothing but fun happening
no gun clapping keep yourself at home if you thinking about scrapping
its a south coast party bacardi and wings been this way since we bounce, rock skate at jellybeans
sporting jordache jeansthe rest of his rap(Back to Chorus)
