Triumph

Anja Nissen

There's fire in the dark
I can feel the heat
Like it's burning right in front of me
Don't have to see it to believe it
We could play it safe
Avoid the battle lines
There's always gonna be another fight0
But as long as we got this loveI know we're gonna triumph
Yeah, yeah
We're golden when we light up
Yeah, yeah
It's just a matter of time
Before we're gonna triumph, triumph
Yeah, yeahNothing can stop us now
Our feet already left the ground
We're so close I can almost taste the victory
In my teeth
I can be anything with you next to me, woah
But as long as we got this loveI know we're gonna triumph
Yeah, yeah
We're golden when we light up
Yeah, yeah
It's just a matter of time
Before we're gonna triumph, triumph
Yeah, yeah
Long as we got
Long as we got this love
We're gonna triumph, triumph
Yeah, yeahWe're going faster, getting higher
Making the non-believers liars
Nothing can kill our fire
Nooo oh oh oh
We're going faster, getting higher
Making the non-believers liars
Nothing can kill our fireI know we're gonna triumph
Yeah, yeah
We're golden when we light up
Yeah, yeah
It's just a matter of time

Before we're gonna triumph, triumph
Yeah, yeah
I know we're gonna triumph
Yeah, yeah
We're golden when we light up
Yeah, yeah
It's just a matter of time
Before we're gonna triumph, triumph
Yeah, yeah
