Chillin' It

Cole Swindell

I got my shades on, top back,
Rollin with the music jacked,
One on the wheel, one around you babyLittle sun left to burn in the blue sky,
Shinnin' of the cross
Hangin' from the mirror of my ride,
Breeze blowin' in, your hair blowin' round
You're scannin' through the stations
Lookin' for that country sound
The good stuffs iced up in the back seat,
Nowhere to go, nowhere to beI got my shades on, top back,
Rollin' with the music jacked,
One on the wheel, one around you baby
Sunset, I bet there's a chance we can get
Sure enough tangled up, laid back and lazy
Pour it on easy now don't spill a bit
Nothin' but time tonight, let's get to killin' it
Long as I'm rockin' with you girl
You know I'm cool with just chillin' itNothin' but two lane country on up ahead
Girl you so fine
I wouldn't mind if this is all we did
You got me high on kisses, you got me missin' signs
Hard lookin' left when my world is on my rightI got my shades on, top back,
Rollin' with the music jacked,
One on the wheel, one around you baby
Sunset, I bet there's a chance we can get
Sure enough tangled up, laid back and lazy
Pour it on easy now don't spill a bit
Nothin' but time tonight lets get to killin' it
Long as I'm rockin' with you girl
You know I'm cool with just chillin' itNothin' like a little you and me low key
Right now I'm right where I wanna beI got my shades on, top back,
Rollin' with the music jacked,
One on the wheel, one around you baby
Sunset, I bet there's a chance we can get
Sure enough tangled up, laid back and lazy
Pour it on easy now don't spill a bit
Nothin' tonight but time lets get to killin' it
Long as I'm rockin' with you girl
You know I'm cool with just chillin' itYeah I love rockin' with you

When girl we're just chillin' it
