

# Another Time Around

[Tad Morose](#)

Don't tell me life is for the living The voices that I hear say it's not so  
I fear they just pretend to hold the answer...They tell me life's what we're given Then nevermore, but hey, you  
never  
know Believe me, in time there's no tomorrow So wish me well I feel it's  
time to goAnother time around Another song, another crown  
New faces hide the cards Turn them down  
A masterful design Not once upon a time And still we dream We hope for  
something moreThey told me - I saw Holy fire, oh the burning of us all  
Another time aroundDon't want to face the day still unforgiven No, I don't want to see the end  
at all Don't want no brave new world tomorrow Forevermore to one and allThey told me - I saw Holy fire - ooh,  
burning in us all  
Another time around
