

Breaking

Dive

I'll break down and you can make leave
Well I will never come to you
Help me out when somethings growing
Cause anything I do, you try to do it to Walk away from your family
You left us living in the dark
Now you're free and you are all alone
And I will make it on my own I'm breaking, I'm breaking away
From the life I've know
Standing strong and free on my own
I'm breaking, I'm breaking away
From the lies you told
The never ending love you sold I'll forget the things you said to me
You don't control me anymore
Digging deep, the scars will fade away
And finding truth in you was harder than I thought You walked away from your family
You left us living in the dark
Now you're free and you are all alone
And I will make it on my own I'm breaking, I'm breaking away
From the life I've know
Standing strong and free on my own
I'm breaking, I'm breaking away
From the lies you told
The never ending love you sold I'm breaking, I'm breaking I'm breaking, I'm breaking away
From the life I've know
Standing strong and free on my own
I'm breaking, I'm breaking away
From the lies you told
The never ending love you sold I'm breaking, I'm breaking away
From the life I've know
Standing strong and free on my own
I'm breaking, I'm breaking away
From the lies you told
The never ending love you sold
