

# Warm This Winter

Gabriella Cilmi

We met in the winter  
And we fell in love Right by a fire place  
We shared our first embrace  
And then inside my heart  
I felt a fire start  
It's gonna snow outside  
The weather will be cold  
But I'm gonna be warm (ho ho) this winter Each time your lips touch mine  
They taste like sparkling wine  
I feel so warm and loved  
Just cause I love you so Its cosy in your arms  
I'm yours to have and to hold  
But i'm gonna be warm (ho ho) this winter Ice skating on a frozen lake  
Sleigh riding down a mountain slide  
Roasting popcorn, dancing till the dawn  
That was how, a new love was born It's just like make believe  
Each night is new years eve  
Each day is christmas day  
You make me feel this way  
It's gonna snow outside  
The weather will be cold  
But I'm gonna be warm (ho ho) this winter You know it's gonna snow outside  
The weather will be cold  
But I'm gonna be warm (ho ho) this winter Oh  
Oh, You'll make me warm this winter  
Oh baby make me warm (ho ho) this winter Oh  
Oh, You'll make me warm this winter  
Oh baby make me warm (ho ho) this winter
