

Manufactured Love

[Michael Blume](#)

So stoned, smoked the best stones
Only the best stones there on my finger
At home, one of three I own
I'm getting toned with my personal trainer
Juicy from the vine, the fruit is sweet
Living out a life of royalty
Y'all don't even know
You unlearn how to love And the neighbors whisper
Do you really love your kids?
Or do you pay for manufactured love?
Do you really love your kids?
Cause if you do you really fractured love
Breath deep and put up my feet
Don't speak, just let the oxygen enhance my vibe
Was blind, but now I can see, I'm set free
And now I'm getting loved the sweetest lies
Y'all don't even know the way to love
Too much money made you give it up
Y'all don't even know the
You unlearn how to love
And the neighbors whisper
Do you really love your kids?
Or do you pay for manufactured love?
Do you really love your kids?
Cause if you do you really fractured love
Do you really love your kids?
Or do you pay for manufactured love?
Do you really love your kids?
Cause if you do you really fractured love
