Fly

Maddie & Tae

Baby blue staring in the window pane just counting drops of rain
Wondering if she's got the guts to take it
Running down her dreams in a dirty dress, now her heart's a mess
Praying that she'll find a way to make it
So keep on climbing, though the ground might shake
Just keep on reaching though the lid might break
We've come this far, don't you be scared now
Cause you can learn to fly on the way down
Searching for a sign in the night, even like a lonely string of lights
That'll burn just long enough for you to see it
The road's been long and lonely and you feel like giving up
There's more to this than just the breath you're breathing
So keep on climbing, though the ground might shake
Just keep on reaching though the lid might break
We've come this far, don't you be scared now
Cause you can learn to fly on the way down
Instrumental
On The Way Down
Bridge:
You won't forget the heavy steps it took to let it go
Close your eyes, count to ten, hold your breath
and fly
Keep on climbing, though the ground might shake
Just keep on reaching though the lid might break
We've come this far, don't you be scared now
Cause you can learn to fly on the way down
Ohh-oh, oh-oh
Flyâ€”
Flyâ€”
