zhang da nan dao shi ren bi jing de kui lanTranslationmy arrogance destroyed, my utter hate suppressed
only then did I realize I loved those the most
Use midsummer to have fun selfishly, let the future's cruelty approaching
run unrestrained, light-years away, but nowAbandon regulations, love the way you want to
Unbridled yourself, leave behind the future
I don't turn around...4xMake the law simpler, make order more chaotic
I only like this kind of teenage life
Use midsummer to have fun selfishly, let the future's cruelty approaching
run unrestrained, light-years away, but nowI want to go mad, I want to love
I want to go mad, I want to love right now
Ten thousand mp3s, ten thousand times of unbridled love
can't extinguish a little bit of lonelinessI want to go mad, I want to love
I want to go mad, I want to love right now
midsummer's one revelry has surpassed light-years
so growing up is an ulceration a person must endure
