

# Light Into the Darkness

## Rage

[Music by: P. Wagner]

[Lyrics by: P. Wagner] Shadows in my mind, it's dead, all I had inside

bunched is the old fear, just to let a new one appear

just be quiet, my heart, and keep the peace in the dark

blossom's better than decay, there must be more for me, I can't wait Oh, when will you leave, eternal night, you

lead to the nevermore

end up this chain existence, now, the best is yet to come for me There's light into the darkness

so come and lay down by my side

there's light into the darkness

come on and rest your mind in my arms

let me enlight your darkness

there's nothing better than a friend

give light into my darkness...I've heard a distant voice, it said aloud the word I'm waiting for

Just keep quiet in peace, beware your heart in the dark, the word is here Can you see the colours in the new born

leaves on every tree

rescue can be found in each thing, if one just gets into it There's light into the darkness

so come and lay down by my side

there's light into the darkness

come on and rest your mind in my arms

let me enlight your darkness

there's nothing better than a friend

give light into my darkness...free of pain, free from doubts, free of fear Can you see the colours in the new born

leaves on every tree

rescue can be found in each thing, if one just gets into it There's light into the darkness

so come and lay down by my side

there's light into the darkness

so let me lay down by your side

there's light into the darkness...if I just get into it
