

# We Respect You

## Gama Bomb

Advisory - the following lyrics contain explicit language:

Sitting in the house, watching High Spirits  
Steve Guttenberg preparing to rock  
Sitting on the bus, listening to the Terminator soundtrack  
Tahnee Cain, solid as fuck  
Here's looking at you, Michael Biehn  
When we go drinking, we shout about you  
Outlining your career, pumping my fist  
Aliens is amazing, it's true  
Ronnie Cox is locked on target  
High-pants women are dancing for him  
Shooting his cool gun across the years  
Surely his powers will never dim  
Respecting Chrises Lee Lloyd and Walken  
And JCVD? Yeah, now we're talkin'  
Peter Falk can walk the walk, he talks it like it is  
Bruno Mattei can make our day with his amazing films  
Titanic skills and shocking styles  
You're guilty of being cool  
We do licks inspired by heroes  
We respect you  
A pint with dick donner, kebab with J Fox  
John carpenter was smashing up the drums  
We were shouting about John Hughes in the kitchen at some guy's house  
If you don't like Kurt Russell you're scum  
Bill Paxton wasn't in Inner Space, but by Christ we wish he was  
Gary Busey was in Bullet Proof, dare bring him up and we'll cause an awful fuss
