

Glass Heart

Magic Giant

Hey, don't wash those tears away
Keep 'em in a safe
They're the last you'll ever make
Everybody sings
Songs of misery
Making their mistakes
While their making history
Woo
Lets Make HistoryCause if you ask me
How I see it, I
Can show you
Step into the lightYour glass heart
Been in a sharp place
Walking on tightropes, dancing on razor blades
I see through
Those dark days
Let me hold your glass heart,
we'll never break
Let me hold your
Glass heartTrust, is such a fragile thing
Takes some time to build
And can shatter in a blink
I promise not to blinkCause if you ask me
How I see it, I
Can show you
Step into the lightYour glass heart's
Been in a sharp place
Walking on tightropes, dancing on razor blades
I see through
Those dark days
Let me hold your glass heart
We'll never break
Let me hold your
Glass heartWoah (x3)
Step into the light
Your glass heart's
Been in a sharp place
Walking on tightropes, dancing on razor blades
I see through

Those dark days
Let me hold your glass heart
We'll never break
Let me hold your glass heart
We'll never break
Let me hold your glass heart
We'll never break
Let me hold your glass heartWoah (x3)
Glass heart
