

Live Forever

Hollywood Undead

Living in right now
In heaven and this town
'Cause I'll never fade away
I've never needed a crown
We've only come this far
So cover up your scars
And I don't ever feel the pain
I just look to the stars
Right now
It gets me up and it's understood
That deep down
It fucks me up but it feel so good
So never say never
It's every breath that I treasure
I'm in love with right now, tonight I'll live forever
Like whoa, whoa, live right now
It doesn't matter if you're heaven or hell bound
Like whoa, whoa, live right now
It doesn't matter if you're heaven or hell bound
Everybody wants to live forever
But who I am to say
I just want a life we will remember
We're living for today
'Cause tonight we fight to take this world
And make it all our own
Everybody wants to live forever
Come and follow me, we'll never be alone
This is who I am
Your soul is my romance
If everybody's letting go
Let's do it with both hands
I live in the darkness
I'm tired of the shade
If everybody's letting go
I just wanna be saved
Right now, this is who I wanna be
Deep down, all I want is everything
I mean every word and I mean every letter
And as long as you believe me
Maybe we could live forever
Like whoa, whoa, live right now
It doesn't matter if you're heaven or hell bound
Like whoa, whoa, live right now

It doesn't matter if you're heaven or hell boundEverybody wants to live forever

But who I am to say

I just want a life we will remember

We're living for today

'Cause tonight we fight to take this world

And make it all our own

Everybody wants to live forever

Come and follow me

We'll never be aloneWe're living right now

So sing it out loud

We're living right now

So sing it out loud

Let's go!Everybody wants to live forever

But who I am to say

I just want a life we will remember

We're living for today

'Cause tonight we fight to take this world

And make it all our own

Everybody wants to live forever

Come and follow me, we'll never be aloneLike whoa, whoa, live right now (we'll never be alone)

It doesn't matter if you're heaven or hell bound (we'll never be alone)

Like whoa, whoa, live right now (we'll never be alone)

It doesn't matter if you're heaven or hell bound
