Three Evils (Embodied in Love and Shadow)

Coheed and Cambria

Across the floor in the hand of where we drove the Drill

A cautious ear to the mouth of your confession

Think of all the things we put him through

In the face of his God would he tell the truth? Still recorded were the words that dribbled out his Kiss

When eyes go blind in this man of what could once become

Sever the limbs off his torso in sleep

And burn what remains so the world may now seeNo longer, will we wait for your answers

Back to the hell where you've come from

Think of all the times you've once had

Write them in a letter that says goodbyeYou'll listen to reason

While you're face down in the dirt

You'll stomach the hurt

And break for him here just how much he's worthSlowly discarded were the remains of his lonely youth

Among the alley where the dwellers scare to notice

Picture a young boy in pieces and streets

With leveled malfunctions no name to be called RedeemerWe'll fix him restore him

With the love if no other

Think of all the things you did before

Write them in a letter that says rebornYou'll listen to reason

While you're face down in the dirt

You'll stomach the hurt

And break for him here just how much he's worthFollowing you across the interstate walking away

I'll fire on

Following you across the interstate walking away

I'll fire on

Following you across the interstate walking away

I'll fire onOn the wrong way out

On the causeway to never where

On the wrong way out

On the causeway to never where

On the wrong way out

On the causeway to never where Dear my friends, in the time we've spent

Forever after beyond this when will our nightmare ever end, end, end?

Dear my friends, in the time we've spent

Forever after beyond this when will our nightmare ever end, end, end? Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Forever you will, forever you will learnPull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops
Forever you will, forever you will learnPull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Forever you will, forever you will learn
