

# Let It Go (Album Version)

## No Motiv

I can't cry for the whole world  
Or make it be the way it should  
I can't believe the things I've seen  
It's not with or without a face  
It could be the latest craze  
There has to be someone to say  
That it's not okay  
And I finally realize, it hits me right between the eyes  
And I have to let go  
And then the sun begins to shine and I have no more tears to cry  
Then I can sleep it all away, away  
I turned the TV on today  
It made me stop and turn to say  
"Are all these people here for real?"  
They reach down into our lives  
Then leave us hanging out to dry  
I just can't take another day  
Make 'em go away  
Then I finally realize, it hits me right between the eyes  
I have to let go  
And then the sun will start to shine and I'll have no more tears to cry  
Then I can sleep it all away, away  
You've got to let it all go, let it all go  
You've got to let it all go, let it all go  
You've got to let it all go, let it all go  
Let it all go, let it all go  
Then I finally realize, it hits me right between the eyes  
I have to let go  
And then the sun begins to shine and I have no more tears to cry  
Then I can sleep it all away
