

Remember to Forget

Arcwelder

(music/words w. graber & s. macdonald)

Believe the unbelievable - feel what it's like

Thinking the unthinkable - feel what is life

I'm doing the impossible - remember to forget

Deny the undeniable - I can't remember yet So sing a little pop song - then everybody loves you

Just sing a little pop song - then everybody loves you See the unforeseeable - and see that it's a choice

Perceive the unperceivable - my vision and my voice

Explain the unexplainable - to those who never feel

Convincing the invincible - is insight not for real So sing a little pop song - then everybody loves you

Just sing a little pop song - then everybody loves you

So live a little pop life - real or pretend

Sing a little pop song - like it will never end
