

# If I Stay

## Sick Puppies

Another night in my own skin I don't know what I'm in for  
I just wanna know when this will end so I can bury it all  
I just can't let go even when I start to lose control  
'Cause everything will be okay If I stay I never thought I would survive on my own  
I feel it haunting me inside it's all I know  
I can't breathe I choke on silence  
But I'll stand when all the light is gone  
I'll keep holding on Another day that goes to waste I don't what I'm here for  
And you could blink another escape you never know it 'cause your  
Eyes won't let me in so I fall back into the dark again  
'Cause everything will be okay  
If I stay I never thought I would survive on my own  
I feel it haunting me inside it's all I know  
I can't breathe I choke on silence  
But I'll stand when all the light is gone  
I'll keep holding on Every cut, every wound I show  
Is a victory you won't know  
In the end it'll wash away  
If I stay  
Every cut, every wound I show  
Is a victory you won't know  
In the end it'll wash away  
If I... If I stay  
If I stay  
I never thought I would survive on my own  
I feel it haunting me inside it's all I know  
I can't breathe I choke on silence  
But I'll stand when all the light is gone  
I'll keep holding on
